GENERAL CHARACTERISTICS

Propulsion 2x 100 kW (272 hp)
Solar roof capacity 36 kW
Battery capacity 182 kWh
Retractable deck 455 sqft (42 m²)
Self-elevating sys. 40 ft hydraulic spuds

FRENCH cutting-edge concept
DUTCH architectural design
USCG registered recreational vessel
BUREAU VERITAS certified modular steel hull
ABS, LR & DNV-GL approved Lithium-Ion battery

Living Indoor 2,600 sqft (242 m²)
Living Outdoor 1,750 sqft (163 m²)

Swimming platform 125 sqft (12 m²)
Air draft 25 ft (7,6 m)
Gross tonnage 123 GRT
High grade insulation
Energy recovery ventilation
6 independent reverse AC zones
AC healthy/soothing interior climate
LED lighting system indoor & outdoor
Floor to ceiling impact resistant windows
Smart house automation
Smart navigation & operating system

Hull & super-structure material steel
Boat lift capacity (removable) 30 ft | 5 Tons
Fresh water capacity 4,000 GAL (15 m³)
Holding tank capacity 4,000 GAL (15 m³)
Exterior decking *by Esthec*
